### RECEIVES THE PALLIUM

ARCHBISHOP HARTY QUALIFIES AS ARCH PRELATE OF MANILA.

Makes Farewell Calls on the Cardinals-Pope Gives \$20,000 to Poor-Cardinal Gibbons at Genoa.

ROME, Aug. 17 .- The ceremony of the imposition of the archepiscopal pallium on the Most Rev. J. J. Harty, archbishop of Manila, was performed to-day by Cardinal Macchi in his own private chapel. The first chaplain celebrated the mass, Cardinal Macchi assisting. When the archbishop had been invested with the episcopal robes and mitre the cardinal placed the pallium on his shoulders and the archbishop took the oath to observe the rules of the church. Monsigner Edward W. Fowler and Father Zepf acted as witnesses. Archbishop Harty, during the day, paid farewell visits to Cardinals Gotti, Rampolla, Respighi, Martinelli, Steinhuber and Vives y Tuto.

The Pope has given \$20,000 for distribution among the poor of Rome.

The pontiff seems to have quite recovered his health and is giving more audiences than before he suffered from his recent fainting fit, although the heat is still suffocating. This morning, among others, the Pope received Prince Chigi, marshal of the conclave, and questioned him regarding the discharge of his duties as marshal. The prince said it would be better for him to be inside the conclave precincts, instead of outside, as there were many efforts to estabcommunication with those inside and they could be more effectively checked if the marshal was inside.

The Pontiff afterward received Prince Orsini at the papal throne. The Pope greeted him by saying he would be glad if the prince would retain his office, which he had re-signed before the death of Leo XIII, and expressed the hope that he would not again resign it. In reply, Prince Orsini gave the Pope to understand that his resignation had nothing to do with the duties of his office, but was tendered on account of his dissatisfaction with the conduct of certain matters under the late Pope,

Hess says he left home last Wednesday or Thursday, intending to go to Fort Wayne, with the intention of committing suicide, but by mistake boarded the wrong train and came to Warsaw and thence to Goshen. He says he once before attempted to shoot himself with the same revolver, but the spring was too weak and he had since had a new spring put in. He said he also tried to hang himself in his father's barn but the rope broke and no one ever learned of it. He declares his intention of yet ending his life. President Roosevelt was immediately adrised of the news, Mr. Beaupre's telegram being forwarded to Oyster Bay. Very little additional information concerning the action of the Colombian Senate could be obtained at the State Department. Mr. Loomis was not at the department to-day, the statement being made that he had gone away for a few days on business. Mr. Adee, acting secretary, would not discuss Colombian affairs nor indicate what course the United States would pursue. The information in the cablegram of Minister Beaupre was meagre and there was no intimation as to whether the treaty might again be brought up for consideration. Section 4 of the Isthmian canal act provides that should the President be unable to obtain a satisfactory title to the property of the Panama Canal Company and control of the necessary territory and the rights necessary to the construction of the canal from the republic of Colombia he shall make the necessary treaties with Costa Rica and Nicaragua and proceed with the construction of a canal by the

Nicaraguan route. It will be impossible for President Marroquin to submit again the treaty to the Colombian Congress in its present form. The Senate having rejected it the treaty cannot again come before that body except by the Senate's own vote. President Marroquin, however, can send the treaty, slightly amended, to the Senate and reopen the canal debate. It is believed at the Colombian legation that President Marroquin will adopt some such procedure.
Dr. Herran, the Colombian charge d'affaires, has received an official cablegram from the Colombian secretary of state dated Aug. 13, containing the brief announcement of the Senate's rejection of the treaty on

The reason given for the rejection of the treaty by the Colombian Senate, it is said here, was the alleged encroachment on Colombia's sovereignty, which its opponents contended would result from the treaty. This information was contained in a dispatch received to-night by Dr. Herran, the Colombian charge, from Foreign Minister Ricos, at Bogota. This dispatch showed that in its present form the treaty was absolutely unacceptable to the Senate, for the reason stated, and that it had been rejected unanimously. The view taken by the Senate was at variance to that held by the government of Colombia, which felt satisfied when it submitted the treaty to Congress that there would be no impairment of Colombian sovertignty if the treaty should be ratified.

President Is Disappointed. OYSTER BAY, Aug. 17 .- Upon the return of the President to Sagamore Hill this evening from reviewing the fleet, he found awaiting him there information of the rejection by the Colombian Senate of the Panama canal treaty. While he naturally is disappointed at the action of the Congress, he does not desire at this time to make any comments upon it. When it was learned recently that the Colombian Congress intended to amend the treaty it was understood that an intimation was conveyed to the Colombian government that such amendments as were proposed will be unsatisfactory to this government. ## BY MORAL WAVE

THE WORK OF PURIFICATION GOES ON IN LAFAYETTE.

City of Evansville Raises Liquor Li censes After Years of Agitation and Much Opposition.

Special to the Indianapolis Journal. LAFAYETTE, Ind., Aug. 17 .- Following fast upon the knell of the gamblers, sounds the doom of over a hundred saloons in the city, and unless technical trivial violations of the Nicholson law are not rectified within the next few days, the licenses of local saloons will be revoked by the wholesale. This morning Chief of Police Harrison. Sergeant Mackesy and Detective Powell visited every saloon in the down-town district, and this afternoon all of the outlaying places were taken in. Wherever there is a screen, a form of amusement of any kind, a partition, a wine room or back room of any sort, a revision is ordered, and the proprietor must change the make-up of the interior of his saloon or lose a license. The work of inspection will be kept up until every saloon is notified to remedy certain legal ills, and then a strict watch will be kept to see that the order of the police is obeyed. The edict of the board of police ners is so broad in its scope that it has simply demoralized the saloonkeepers of the city and so sudden and ponderous has been the attack upon their places of business they cannot realize the meaning of it. To obey the law is a foreign accent to many of the saloonkeepers in the city. "Yesterday the city was tight as a drum said President Baugh, of the Board of Police Commissioners. "I don't believe a single drink was sold in the city, and that is saying a good deal. After to-day I do not think there will be a city in the State that can boast so completely moral a tone

as Lafayette. The Lafayette Club, which is composed of the most prominent men in the city, and which is one of the most influential nonpartisan organizations in the State, has been operating a bar, and there is no county or city license. The club has nothing but a government license, although it sells beer and other liquors. Among the masses there is considerable protest at this apparent partiality, and it is said that affidavits will be sworn out for some members of the club by the saloon keepers, who are lately feeling the iron hand of the law. Saloon keepers held an impromptu meeting this morning, and it is rumored that they intend to "get even." It is said they will file affidavits against every druggist, cigar dealer and every other business man who operates his place of business on Sunday If this condition exists there will be all kinds of inconveniences in the city on Sunday, and the reaction on the public will be embarrassing. It may be remarked in connection with the proposed action of closing saloons that J. D. Bartlett, one of the members of the Board of Police Commissioners, is a druggist, and operates a soda fountain in his place of business on Sunday. The saloon keepers say if the "usual avocation" law is to be enforced it will be enforced upon all alike. The situation in the city is really interesting, and developments are awaited with no little anxiety.
